

# 2017 - 2018

## Annual Report

**HEALTH CARE**  
FOUNDATION  
for hospitals & health centres here at home

# A Letter from the Chair:

## A Reflection of Service

Dear friends and donors,

This past year was very special to me because it marked the end of an era, as I will retire from the Board of Directors this year after 16 years of service, six of which I have proudly acted as Chair. As I move on from my duties, I can do so with a great feeling of accomplishment – from the incredible growth in support for our adult patients to the everlasting relationships I have built with fellow board members, donors and friends of the Foundation. We are all in this together, and it is inspiring and motivating to work with our community for better health care, right here at home.

Ironically, on the year of many ‘lasts’ for me as Chair, I also had the opportunity to celebrate a number of firsts with the Foundation. Thanks to the support received from our first ever Row 4 Heart, we bought the provinces first mechanical heart, which is already saving lives. We also worked with our donors to introduce the provinces first 3 T MRI machine, providing more detailed imaging than we ever could before.

We are a Foundation that is built on the value of compassion, and thanks to our incredible donors, we are able to invest in all portions of the care experience, from the quality equipment used, to the training of the professional that is caring for you to the warm blanket you were given in your time of need.

The impact our donors have on health care in this province is undeniable and there is no way we can thank you enough. Finally, I'd like to extend congratulations to our new Board Chair, Jocelyn Perry. I am confident she will do a wonderful job in continuing to enhance health care here at home.

Sincerely,

Debbie Patten

Chair, Board of Directors

# Message from the President & CEO

Within the walls of our hospitals and health centres, emotions run high. On the labour and delivery unit, new parents are experiencing feelings of love they never knew were possible, while in the palliative care unit families are coping with feelings of intense loss as they let go of their loved ones. Our goal is to support our community when they need it most, during times of happiness, loss and when facing the unknown. We are literally caring for people throughout their lifespan – from the delivery room to our loving long-term care homes – and we could not do it without the incredible support of our donors, volunteers and friends.

We are delighted to report that we transferred \$2,751,936 to Eastern Health in 2017-18 to support these patients, residents and families during their time of need. Thanks to you, our donors, we have invested in spectacular technology and equipment, comfort items, research and education that will improve the lives of people from across Newfoundland and Labrador.

We invite you to review this annual report and reflect on the difference we have made together for health care right here at home.

Paul Snow  
President and CEO

# Your Gifts in Action

## New 3 T MRI Donated to Health Sciences Centre

During the 2017-18 fiscal year, the Health Care Foundation, in partnership with the Government of Newfoundland and Labrador, completed its journey to secure funding for a new state-of-the-art 3 T MRI. Thanks to the support of Trades NL (\$1 million donation), the Bank of Montreal (\$500,000 donation), Scotiabank (\$250,000 donation), CIBC (\$120,000 donation) and the Estate of Gordon Butler (\$43,800), the new scanner was successfully installed in May 2018.

“If I could say anything to the donors that helped fund the new 3 T MRI, I would let them know that they have no idea how important their contribution is to patients like me,” said Samm Tilley, a multiple sclerosis (MS) patient and frequent MRI user. “This is not just a machine, it ultimately determines someone’s life and path to wellness. It gives me great comfort to know that someone is keeping an eye on me.”

The 3 T MRI is an incredible enhancement to the current fleet of diagnostic equipment at Eastern Health. Technology is always changing and improving and the Foundation is proud that patients will now have access to the best 3 T model available on the market.

Without the support of our donors, the people of Newfoundland and Labrador would not have access to this incredible machine. Thank you for advancing health care here at home.

# Benefits of the new 3 T MRI

## **It's Extremely Efficient**

This scanner can generate high quality images very quickly, allowing shorter examination times. This means more patients can be scanned, which improves access to this service.

## **Enhanced Comfort for Patients**

Patients will be able to listen to music during the exam, which will help create a distraction and reduce anxiety.

## **Ultra-High Definition Imaging**

If a picture is worth a thousand words, the 3 T MRI is an encyclopedia.

## **Improved Clinical Outcomes**

The new MRI will ultimately help improve outcomes and comfort for patients, especially for the diagnosis and navigation of MS, brain cancers, aneurysms, pelvic cancers and prostate cancer.

# Your Gifts in Action

## New Mechanical Heart Saving Lives

The Health Care Foundation partnered with VOCM Cares to host the first annual Row 4 Heart Radiothon on February 13, 2018 at the Avalon Mall, which raised \$87,863 for the Provincial Cardiac Care Program. This was not your average radiothon - Row 4 Heart was also a heart pumping rowing challenge! Over 120 rowed and pledged for the event, with hundreds of others donating to help raise the funds necessary to purchase mechanical heart technology.

Mechanical heart technology is crucial life-saving equipment for cardiac patients. While the program was equipped with state-of-the-art equipment needed for heart surgery, having a mechanical heart allows them to provide care to those patients requiring a bit more help to recover. A mechanical heart helps provide care to patients who require several days of heart support either before or after their surgery. The device is also very portable, which helps those patients who need support when travelling to receive either a heart or lung transplant.

“We are so thankful for the gifts we received from the people in this province to purchase this incredible equipment,” said Dr. Corey Adams, Cardiac Surgeon with Eastern Health. “I am happy to report that using this equipment, we saved a young person’s life recently. This equipment changed this person’s life, and we would not of had it without the help of the Health Care Foundation.”

We thank everyone who participated, volunteered or donated to the event. You all are truly are helping save lives.

# Your Gifts in Action

## Providing Peaceful Ports to Weather Life's Storms

The Health Care Foundation's Peaceful Port Project continued to grow this year, with 13 spaces now transformed into tranquil havens for patients, residents and their families within hospitals and health centres. To date, \$800,000 has been invested into the project thanks to our donors.

### Andrea Powell's Peaceful Port

A special thanks to the family and friends of Andrea Powell for supporting the transformation of a quiet room in the Intensive Care Unit (ICU) at the Health Sciences Centre in her honour. This area will provide much needed comfort and relaxation to families with loved ones in the ICU.

### Waterford Psychiatric Assessment Unit (PAU) and Short Stay

The Health Care Foundation, with the support of the Government of Newfoundland and Labrador, transformed the PAU and short stay units at the Waterford Hospital. All art work used within the PAU is from clients of the Open Windows Studio at the Waterford Hospital.

# Down By the Bay

## Home Lottery Moves to Portugal Cove - St. Philip's

The Health Care Foundation's Home Lottery continued to generate excitement and raise vitally needed funds in the 2017/18 fiscal year. In May 2017, the Foundation concluded its ninth annual lottery and netted approximately \$600,000 for various adult health care programs.

For the 10th anniversary of the Home Lottery, the Health Care Foundation felt it was time for a change in location. In the spring of 2018, the Foundation launched its first ever oceanfront showhome at 9 Ocean's Edge in Portugal Cove-St. Philip's!

Even with more tickets available than previous years, the lottery was a massive success, selling out by the early bird deadline and netting approximately \$1 million.

So who won the \$1.1 million Grand Prize Showhome with the priceless view? Robert and Ruby Murphy bet the odds and won both the incredible home, plus \$15,000 cash!

Other major prize winners included Roy Naugler who won the Early Bird Prize of a new Jaguar F-Type Convertible or \$70,000 cash. The winner of the largest 50/50 take home in the lottery's history was John Marshall, who received a cheque for \$247,035!

It will be tough to top the 2018 Home Lottery, but as always, the Foundation is up for the challenge!

Thanks to the generous and enthusiastic support from our community, the Hospital Home Lottery has raised millions for...

# General Hospital Auxiliary

## 50<sup>th</sup> Year Anniversary

The General Hospital Auxiliary are celebrating their golden anniversary this year – marking 50 years of caring and supporting patients and families of the Health Sciences Centre and the Dr. L. A. Miller Centre.

This group is comprised of committed volunteers who double as incredible fundraisers through their own activities and the gift shop.

Lona Warren has served as President of the Auxiliary for 16 years now, and has been a member for over 20 years.

“I’m very proud of the many women and men who, as volunteers over the past 50 years, have dedicated their time, talent, and energy to improving our health care system. We are also extremely proud that our Auxiliary, over the past 50 years, has raised almost \$4 million for new hospital equipment and the provision of expanded patient services,” said Mrs. Warren.

The Auxiliary has helped fund lifesaving equipment throughout its history, including a heart lung machine, a kidney dialysis machine and a CT scanner. They have also supported the development of a burn unit and a dementia support unit.

During the last fiscal year, the General Hospital Auxiliary completed a commitment to the Peaceful Port Project of \$270,000, which helped fund a number of spaces including the transformation of the outpatient clinic area of the Health Sciences Centre.

The drive and determination of the General Hospital Auxiliary is inspiring. We look forward to working with this group for years to come, and supporting them in their journey to improve health care here at home.

(L-R): Mary House, Founding President; Joan Ingram, Founding Member and Gift Shop Chairperson; Ruth Thomas, Historian; Joan Marshall, Past President; Audrey French, Past President; Elsie Hussey, Past President and Treasurer; Lona Warren, President.

## Volunteering with the General Hospital Auxiliary

On top of their fundraising efforts, the Auxiliary has done a great deal to promote volunteering in health care! Members are given meaningful volunteer assignments, where they make friends with both patients and staff members. The auxiliary also looks out for the well-being of its members, organizing pot luck luncheons and afternoon teas. The group also supports its members in attending Hospital Auxiliary Conventions at both the provincial and national levels, allowing them with an opportunity to report on their accomplishments and challenges and to learn about best practices.

# The 2017/2018 Year in Review

## Supporting Women's Health

The Health Care Foundation continued its support for the Women's Health program this year through its annual Brunch with the Bags™ event. Thanks to the generosity of sponsors, guests, donors and friends, the Foundation raised \$106,019 for grief and bereavement supports for perinatal loss and gynecological equipment.

## Supporting Cardiac Care

On June 15, 2017, the Health Care Foundation held its annual Charity Golf Tournament and Hearty Lunch at The Wilds in support of the Provincial Cardiac Care Program. Thanks to the outstanding support received from sponsors and participants, the Health Care Foundation raised \$86,826 for a new portable ultrasound machine and a transport monitor. Additionally this year, thanks to a \$30,000 donation from Avalon Ford, the Health Care Foundation supported the installation of new televisions for the Cardiovascular Intensive Care Unit.

## Supporting Surgical Care Here at Home

The 2017 Eleganza immersed our guests into an evening of suspense, as they engaged in the classic murder mystery of Clue. The Clue themed gala raised over \$407,992 this year for the surgical program to purchase cell savers, also known as auto transfusion machines. These machines are used to recover and deliver back a patient's blood during procedures where a large blood loss is expected.

## Supporting Kidney Care

The Health Care Foundation continued to support the needs of dialysis patients this past fiscal year with proceeds from the third annual Dialysis Dash, held on August 20, 2017 at Bowring Park. Thanks to donors, participants and sponsors, \$82,500 was raised for local dialysis units for a new portable ultrasound machine and a new dialysis machine.

## Supporting Comfort for Patient's and Families

The Health Care Foundation was pleased to donate over \$75,000 to Eastern Health during the 2017-18 fiscal year for Comfort in Care™ items that would improve the well-being of patients and residents. This funding helped purchase a number of items, including child representational therapy dolls, pets and musical bears for residents with dementia, a weighted blanket and comforters for the Waterford Hospital and art therapy supplies for hematology and oncology patients. Funding for the Comfort in Care™ program is provided by Johnson Insurance, as well as generated through a number of initiatives including Tree of Memories, Fall Flowers, third-party fundraisers and employee fundraising.

## Supporting Mental Health and Addictions

The Health Care Foundation provided \$30,000 for the Moving Lives Forward program in 2017-18, investing in post-secondary education bursaries for those living with mental illness or addiction. We are excited to grow funding for the program in the 2018-19, thanks to a donation of \$45,000 from the Royal Bank of Canada's Future Launch.

# Staff Research and Education

The Health Care Foundation continued to support education and research this year through the following initiatives:

## Canadian Nursing Association Certification Grants

The Health Care Foundation in partnership with TD Bank Group, continued its commitment to supporting nursing excellence this year. Thanks to a \$25,000 contribution from TD Bank Group, 41 registered nurses were able to complete a Canadian Nurses Association Certification or Recertification, helping them truly become experts in their designated fields.

## Staff Scholarship Program

The Health Care Foundation was pleased to award \$10,000 worth of scholarships to five Eastern Health staff in December 2017 in support of further education and development.

## Research Grant Program

This year the Foundation donated \$11,839 towards research projects that will help advance adult health care. This year's recipients included projects related to multiple sclerosis and sports related concussive injury.

# Planned Giving

## Building a Legacy in Health Care

The Health Care Foundation saw an increase in revenue for the Planned Giving program during 2017-18 due to an unexpected increase in bequest gifts allowing us to fulfill the philanthropic wishes of a number of donors. A total of \$319,900 in bequest gifts were made to the Foundation, allowing for improvements in cardiac care, staff education, rehabilitation and long-term care.

### Celebrating Gary Rowe's Legacy

Gary Rowe has left an outstanding legacy in health care. When he was still with us, Mr. Rowe was a tremendous supporter for better health care here at home, and he found a way to transcend this commitment for years to come through a planned gift which has supported mental health, Comfort in Care™, life-saving equipment and so much more. This past year, Mr. Rowe's generosity helped transform the diagnostic waiting area at St. Clare's Mercy Hospital into a comfortable haven for patients through the Health Care Foundation's Peaceful Ports Project. The Health Care Foundation was pleased to celebrate the grand opening of this space in March 2018 with Mr. Rowe's family and friends.

### The following individuals left a legacy in health care this fiscal year through a gift in their Will:

Gordon Butler  
Verena Gosse  
Dorothy Pope  
Marty Gertrude Doyle

# Remembering a Life by Saving Another

## In Memory Tributes

The Health Care Foundation received gifts in memory of these individuals between April 1, 2017 and March 31, 2018.
